

HLZ[®] Debris Separator

The unique HLZ[®] Debris Separator is ideal for separation of objects like straws, strings, caps and other garbage from the used beverage containers.

The system offers on-line separation and has the same capacity as the HLZ[®] line of counting and sorting systems.

The HLZ[®] Debris Separator is mounted between the bulk feeder and the HLZ[®] counting and sorting machine.

We offer a small and large HLZ[®] debris separator for the HLZ[®] MD and the HLZ[®] MD Ultra series of machines.

Technical Specifications

Dimensions	Customizable
Power	3 Phase volt. + N + PE
Motor (kW)	2.2
Infeed	By optional external feeder

Highlights
